NEWS FROM STRATHCONA

WILL STRATHCONA GRANT FRANCHISE

The Proposals of the International Lighting and Heating Co. Discussed Informally at a Meeting of the Council Held Last Night.

Strathcona in all probability will grant a franchise to the International Lighting and Heating Co., who propose to operate in this town and Edmonton.

The question came up at a special meeting of the town council last night was only considered informally as one member had to retire, leaving no quorum present. Messrs. Eaton and Sprague outlined their proposition and it was then informally talked over by the members present.

The franchise was asked for by Messrs. Eaton and Sprague personally but the International Lighting and Heating Co. would subscribe for the entire stock when the company was started. The names of local men had to be used, as the company had no legal entity in Canada. As to the ability of the company to do the work promised, the council is not prepared to consider the proposition until they have seen the plans of the company, who had already commenced work with them.

The company is composed of Cleveland gentlemen of wealth and they are to secure a low priced investment. Mr. Eaton emphasized the fact that they did not ask for an exclusive franchise, but simply the privilege of doing business as a local concern.

Mr. Sprague said the price of gas as given in the bylaw was the lowest of any western Canada city and as low as any U. S. western city this side of the coast, where water gas is manufactured in great quantities. There was no doubt rates, one for illuminating and the other for heating, etc., as this system was being cut out by all new companies and the price for the two averaged.

After the agreement had been gone over and slightly amended it was left over to a special meeting on Thursday evening.

GAS FRANCHISE

The application for a gas franchise comes up before the city council tonight and it is a proposition the council should not turn down without giving it very serious consideration. It is pretty generally conceded that the city will not undertake to establish a municipal gas plant for some time to come, having already undertaken about all that can be conveniently managed. It is also conceded that gas for both lighting and heating purposes is very much needed in the city and to many merchants and industrial concerns would be a great convenience.

As to its entering into competition with the municipal plant, it is the place of the question requires no consideration. The electric plant is now overburdened and has prospects of an increase of business a good deal farther than plant can be installed to carry it, and it would be but a poor compliment to municipal ownership to let this private ownership be its serious competitor.

The installation of a gas plant here would be of decided advantage to the city and the business of the council in considering an application for a franchise would be to protect the city in a satisfactory agreement rather than to block the enterprise altogether. Any agreement must of course provide definitely and clearly for the city taking over the plant at the end of a comparatively short period, say ten years. It should also provide for a reasonable maximum price for gas. The price in the draft agreement seems to us to be rather high, the price in Toronto at the same time being \$1.25 to \$1.50; however, the coke as a by-product should find a good market here. It is also very important to provide for a reduction of the price as the consumption increases and to see that the reduction is great enough.

This city has had some hopes of finding natural gas, which if discovered in sufficient quantities would be much cheaper than the product of this company. Under these circumstances, it would be advisable to have an agreement that in case natural gas is found that this company shall become a piping company for the natural gas upon conditions and arrangements that would be reasonably satisfactory. This would insure against the necessity of having two sets of gas mains and pipes laid in the city, and as the consumer pays the cost of piping, as he pays every other cost, it would relieve the users of that extra expense. It is hardly necessary to add that no exclusive franchise should be given to any company.

The gas question is one of very great importance to the city and deserves the attention of the council immediately. It is a business proposition for the benefit and service of a great number of the taxpayers of the city and the matter is up to the aldermen to work out in a satisfactory and business-like manner.

STRIKING THE SHACKLES FROM MANITOBA

The Winnipeg Telegram raises its outraged voice to proclaim that Manitoba received from the federal treasury last year only \$102,000, while Alberta and Saskatchewan each received from the same source \$1,000,000.

This is a pretty fair presentation of the case, but who doesn't think that Manitoba should last year receive \$1,000,000 and only \$102,000 from the federal treasury? It was stipulated by the terms under which Manitoba entered confederation—terms formulated and ratified upon that point by the government of Sir John A. Macdonald.

And who decided that Alberta and Saskatchewan should each receive last year from the federal treasury the sum of \$1,000,000? This, too, was stipulated in the terms under which those provinces became members of confederation. But those terms were granted, endorsed, fought through parliament and made law by the government of Sir John A. Macdonald and in the face of the most persistent opposition of the party headed by the support of the Telegram, and in the face, too, of the line-baiter hostility of the Telegram itself.

The difference in the terms illustrates the difference in the luck on which those terms were based. Manitoba's terms were dictated by a federal government concerned only to give the new province exactly what Manitoba could be prevailed upon to accept quite regardless of whether or not the stipulation should prove sufficient for the needs of the province, and altogether indifferent to the fact that the growth of population would necessarily impose on the province the need of much larger allowances than required in its earlier years. The terms granted Alberta and Saskatchewan were granted by a federal government willing to make ample provision for the financial needs of those provinces, and willing too to make generous allowance for the increased burdens imposed on the provincial governments by the increase in population. If Manitoba finds itself forced to

struggle under the heavier burden of taxes with only the financial allowance stipulated to meet the burdens of twenty years ago Manitoba has only to thank the political ancestors of the party which the Telegram supports; if Manitoba is invited to look with ravens eyes on the equalized allowances made the province of Alberta and Saskatchewan it is also invited to recollect that those generous provisions were made by the government which the Telegram has the honor of supporting, and likewise that those provisions were made the objects of the peculiar and persistent hostility of the Telegram.

The entry of the Telegram now is that the present federal government have not overridden the contract made by its predecessors and strikers from Manitoba the financial disabilities under which that province was placed by the former administration. Even this is not true. In November last representatives from the various provinces of the Dominion met in Ottawa and formulated what they considered a fair schedule for a re-arrangement of the provincial subsidies from the federal treasury. At that conference the representatives of the Manitoba government were present, in the recommendations of the conference those delegates concurred, and those recommendations were tacitly accepted by the federal government. The present government has therefore undertaken to intervene between the province of Manitoba and the parsimonious contract into which that province was entered by the late Conservative government, and in doing so to give Manitoba what the premier of Manitoba said he wanted.

"GET THE HABIT."

Each and every one of us have "Habits." Some have good "habits," others have bad "habits."

"Habits" are the results of continued application along certain lines. One individual may have the "habit" of making money in every investment. Another may have the "habit" of losing on everything into which he enters. To which "habit" are you addicted? Don't get discouraged. Don't think you have a "corner" on all the bad luck that there is in the world.

Even if you have all the "money-losers" cornered in any business we can easily demonstrate to you how you can "corner" enough propositions in Real Estate to cover all your losses in the past. Is it not worth a portion of your time to investigate our propositions?

If you are too busy to call on us we will call on you at any time you desire.

REFEREE GORMAN MADE A MISTAKE

Billy Allan, Hockey Authority of the West, Says he had no Jurisdiction to Put Player Off or Interfere With Judge of Play in Any Way.—Winnipeg Telegram Carroborates.

In view of the contention of Referee R. E. Gorman, in the Strathcona-Edmonton hockey match Friday night that it was he as referee who put McLean off for slashing and cross-checking and that he had the right to refuse to allow Duhan to be put off on the order of Judge of Play, the secretary of the Strathcona Hockey Club wired W. A. Allan, the sporting editor of the Winnipeg Free Press, Saturday, and received a reply the same afternoon. The telegrams are as follows:

Sporting Editor Free Press, Winnipeg. Judge of play rules player off for foul. Can referee overrule decision. Wire reply immediately.—Secretary Strathcona Hockey Club.

No. Judge of play has full power to rule player off.—Sporting Editor Free Press.

The following is from the sporting editor of the Winnipeg Telegram:—

(1) Has a referee any jurisdiction over a judge of play? In his opinion, he is favoring either team. If so to what extent?

(2) Can a referee put players on the bench if he sees a foul when the judge of play is on the ice?

Answers:—(1) The referee has not (2) the judge of play has sole jurisdiction on rough play, but the referee may put a player in the penalty box if he sees that they have him ruled off.—Sporting Editor Winnipeg Telegram.

"I will give you some of these authorities, which are recognized as precepts for the referee in the West, that it is his duty to see that the referee removes players from the ice himself for foul play and in interfering with the jurisdiction of the judge of play."

The Strathcona players have appealed the game to the trustees of the Bank of Montreal. Mayor Grosch of Edmonton, Mayor Mills of Strathcona, and Premier Rutherford. The protest which was made before breakfast hours, was handed to Mayor Mills on Saturday, accompanied by the \$25 deposit required by the deed of the cup.

NEVER FAILING HOT AIR SUPPLY

Calgary Has Championship Clinched Already.—Southerners Will Win Two Thirds of Their Games.—Edmonton to Get One Third, Possibly Less, According to Calgary's Business Manager.

The death race among the Calgary football teams looks likely to be normally heavy this season if the public are taking business. Manager Fidler's team made a fine record as the southern dailies appear to be doing. Fidler has been building up the whole team, boys, real estate clerks, and the three-thirty cranks generally with a line of hope that has them dizzy already and the opening of the season just now looks like it will keep up the hot air supply there will be a tale of woe to all of the southern outfits after the first few Calgary-Edmonton games, which will be the worst sight yet in the back of Job by at least three to one. Fidler has been leading out these phony spouts as often that he appears to almost believe the stuff himself, as the following letter indicates:—

E. H. Garrison, Esq., Edmonton.

Friend Garrison.—Yours of the 13th is hand and pleased to hear from you, but am surprised to think that you would accuse me of peddling hot-air to the public. You should know me well enough to know that I am giving only plain facts to the people here and besides there are a couple of more ball players that we have signed that are regular cranks. But I am withholding their names as I don't want the other teams to quit before we get started. Say what league is Deacon White going to play in this season with that team of his. He sure don't intend to play in the Western Canada League, it must be in the Yukon or Hudson League, that is he is gathering that bunch for. I suppose you will have a good time in this league. I received a telegram from the Philadelphia club that offered him \$1000 for the release of Fletcher McConnell and he asked me for instructions. I very promptly answered him that we did not need the money and McConnell will stay with Calgary. I was telling the kids here about the fact that the kids here about he was going to be away as when he got to get them all into to tell "Low bridge" and that will send him up in the air. I feel sorry to think that you will not be able to attend the games this summer, but I think if that paper depended upon you to come be a cinch. The paper would not be in me. Well, Garry, I think we are better off to have a successful season, and I feel satisfied that the public will be given a good hot air of baseball. Every one in Calgary is talking baseball. We are having our team sent to Seattle and to already looked twenty exhibition games in the different cities in Vancouver, New Hampshire, and Vermont.

We have three games with the Montreal Maroons League team at Montreal.

well and I will bet you a cigar that we will win two of the three from them. Here is a little game on the finish of the League Standing.

Place	Won	Lost
Calgary	31	38
Medicine Hat	30	34
Lehigh	29	33
Edmonton	28	32

Try a game yourself. Of course Deacon may suffer on this game. Nick Alcock of the Sox and Johnny Kling of the Cubs are buying out a hotel here in Calgary and they intend to play the game on the 14th. We will be able to get them to jump into the game once in a while. "Will Clinton" got to get discouraged as he will not be able to make a runaway race of it, but he knows that the Pontiac is a cinch for us. This man Thayer is certainly grabbing some good players.

Yours sincerely,
ALP. D. FIDLER.

TWO VIEWS OF REGINA SERIES. (Once a Week News.) The Regina hockey team got a bad grating in a series of games at Edmonton last week. In the first game Edmonton won by a score of five to two, and Regina was amazed, but attributed it to lack of condition caused by the long winter. The next game was even worse for the home team ran away with the visitors, the score being six to one. Regina was not reckoned as a strong hockey team, but they certainly had no reason to put it over the Regina team on conclusion.

Regina Leader: J. M. Wesel was named last evening from Edmonton while he was with the Regina hockey team. Speaking of the game played in the Alberta capital, Mr. Wesel stated that he had been in Regina for some time. He, however, entirely contradicted the report that he had been a correspondent with regard to the Regina game, stating that but for the faulty sharpening of the skates of three of the Regina players, the result of the game would most certainly have been reversed.

DR. ORONHYATSKHA. "Dr. Oronhyatskha (Burning Sky) whose name was recorded in yesterday's dispatch, was the most prominent representative in Canada of the once powerful race of Inuit, the Eskimo, of the north. Born in the Bradford reserve in Ontario he was educated at the British Industrial school. During the Canadian tour of the present King as Prince of Wales in 1906, the young king delivered an address to the High-landers, who was attended by the monarch's manner and abilities, that he arranged for his education in England. Oronhyatskha accordingly next went to Oxford and during his stay in England he became connected with the Order of Foresters, and as time went on, and as his medical abilities and organization were recognized, he was promoted from post to post until he became supreme chief ranger of the Independent Order of Foresters, enjoying the esteem and confidence of his colleagues and the public generally. He owned two fine homes in Toronto and Bradford. Oronhyatskha on his return to Canada married an Inuit girl from Bradford, by whom he had two children, a son and a daughter. The latter being a notably fine horseman. Mrs. Oronhyatskha professed her husband for a few years.
